

**ADVANCED TRAINING IN LEADERSHIP AND
MANAGEMENT FOR SCHOOL PRINCIPALS**

A SPECIAL IN-SERVICE COURSE PROGRAMME

In Singapore for SCHOOL PRINCIPALS from Thailand

(Monday, 19 – Friday, 23 October 2015)

The Singapore Teachers' Union, as a professional organisation, is open to new challenges in the face of constant change in the Singapore education system. It is prepared to adapt or adopt new strategies in its training programmes.

For this, STU promotes a multi-disciplinary design in its school leadership development approach, as shown in the following programme for school principals from Thailand.

This programme is based on these three objectives:

1. To share with participants our understanding of the developments and changes taking place today in the area of school leadership and management.
2. To show briefly how a school here functions and how English is used as a major medium of instruction in Singapore classrooms.
3. To explain some of the strengths of the education system in Singapore, supported by, for example, the policies of "Thinking Schools, Learning Nation" and "Teach Less, Learn More".

Overview

This COURSE will focus on the DEVELOPMENT OF LEADERSHIP AND MANAGEMENT SKILLS IN SCHOOL LEADERS. How this leadership development will affect curriculum decisions, pedagogy and ethos in the school will be explained.
